

## MS-D5

### Introduction

Introducing the MS-D5, a robust workstation designed for 24/7/365 operation to meet the demands of monitoring and control applications. Engineered for performance, reliability, and user convenience, this powerhouse is tailored for seamless operation in critical environments.

### Features

#### Performance & Reliability

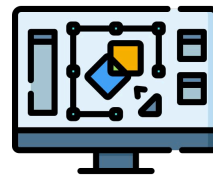

Intel® Core™ i7-14700 (20 Cores, 28 Threads, 33M Cache, up to 5.40 GHz).

32 GB DDR5 (4800 MHz) for seamless multitasking

512 GB SSD for fast and reliable operations.

#### Graphics & Display

NVIDIA T400 4GB Graphics Card for high-quality visuals.

Multiple display options: 1 VGA, 1 HDMI, 3 Mini DisplayPorts.

24" HDMI Monitor with 360-degree adjustment.

#### Connectivity & Expansion

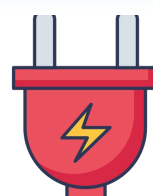

USB Ports: 6 x USB 3.2 Gen 1, 2 x USB 2.0.

Network: 1Gbps Ethernet for fast connectivity.

Expansion Slots: PCIe 4.0 and PCIe 3.0, supports RAID configurations.

#### Power & Security

Efficient 450W 80 Plus Power Supply.

Trusted Platform Module (TPM) 2.0 for advanced security.

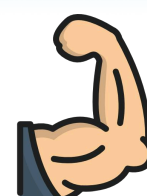

Secure Boot functionality ensures system integrity.

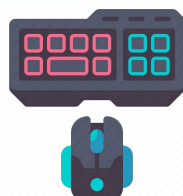

#### Software & Licensing

- **OS:** Pre-installed Windows 11 Pro.
- **Productivity Tools:** Microsoft Office 2021 Business Edition (6-year license) and Adobe Acrobat DC 2023.
- **Monitoring Software:** CERT-IN certified, designed for alarm/event logging and user-friendly operation.

#### Build for Continuous Operation

- Reliable 24/7/365 performance.
- One-click full-screen toggling and layout selection.
- Optimized hardware and software for critical applications.

#### Peripherals & Accessories:

- **Wireless USB Keyboard and Mouse.**
- **CERT-IN certified software.**
- **Optional upgrades: Titanium Power Supplies (up to 2000W).**

### Why Choose MS-D5?

- High-performance specifications for professional applications.
- Comprehensive warranty and support.
- Designed for reliability and security in critical environments.
